OK Workers' Comp. Education Association

"Over the past 11 years as a board member of OSIA—now OWCEA—I've found an invaluable platform for learning, growth and connection. Through this organization, I've built a strong professional network and developed a meaningful support system within the workers' compensation industry. Finding your place in this field takes more than just technical knowledge—it takes a commitment to caring for others, while continuing to grow personally and professionally. OWCEA has created a unique space where that balance is possible. I encourage Oklahoma businesses, claims professionals, and those new to insurance, safety or risk management to get involved."

-Jennifer Milligan, OWCEA President
